

Strategic Manufacturing Partnerships Available for Qualified OEM and Industrial Programs

Confidential opportunity for established companies seeking scalable U.S. manufacturing, fabrication, machining, assembly, and related production capabilities.

THE OPPORTUNITY

This is a confidential invitation to evaluate a U.S.-based manufacturing partnership. The opportunity is intended for established companies with a defined manufacturing requirement and a genuine interest in exploring a production relationship — whether for a new product line, an existing program seeking a new supplier, or additional capacity to support growth.

A well-established, full-service manufacturing operation located in the Midwest United States, operating out of a 300,000+ square foot premises with a workforce of 300+ skilled employees. Fully automated production lines support everything from single prototypes to massive, recurring production runs.

This invitation is intentionally industry-agnostic at this stage. Companies across a wide range of sectors with fabrication, machining, welding, coating, or assembly requirements are welcome to submit an inquiry for review. Submitting an inquiry does not guarantee acceptance, a quotation, or reserved production capacity.

NEXT STEP

Interested companies are invited to complete the confidential intake form included later in this document and return it to the contact listed below for initial review.

CAPABILITIES OVERVIEW

The manufacturing capabilities available through this opportunity generally include the following areas. Specific equipment, certifications, and capacity details are shared directly with qualified applicants following initial review.

- Fabrication
- Machining
- Welding
- Coating
- Assembly
- Engineering & prototyping, including build-to-print support
- Quality control and related production capabilities

SPEED & FLEXIBILITY

- Scales seamlessly from one-off prototypes to high-volume recurring programs

APPLICATIONS

Suited for a wide range of production needs — including farm equipment, oil & gas components, data center infrastructure, and industrial containers, among a broad and diverse range of other applications. Our capabilities support both prototype runs and full-scale production for OEMs and product companies across virtually any manufacturing need.

PRODUCTION CAPACITY

Significant production capacity to support demanding, large-scale manufacturing programs — full details available to qualified inquiries.

CLIENT BASE & CREDIBILITY

Trusted by multiple Fortune 500 technology and automotive companies for years, alongside government and defense-adjacent industrial contracts. Actively manufacturing and shipping for international clients.

CERTIFICATIONS

ISO 9001:2015 Certified | WOSB Certified | NMSDC Certified

HOW REVIEW WORKS

- Light Forward LLC reviews sufficiently detailed submissions and may coordinate further review by the manufacturing partner where appropriate.
- The manufacturing partner independently conducts its own diligence and quotation process for any submission that advances.
- Timing depends on project complexity and the manufacturing partner's requirements. No fixed response or quotation timeframe is guaranteed.
- Qualified submissions may be invited to a confidential introductory call with Jaron Cody Lines. Any later introduction to the manufacturing partner's principal is conditional on that review.
- Proof of funds is not required to submit an inquiry.

ABOUT THE INITIAL QUALIFICATION CONTACT

Jaron Cody Lines, through Light Forward LLC, serves as the initial qualification contact for this opportunity. Jaron Cody Lines is not an employee, owner, or formal representative of the manufacturing company and does not act on its behalf in any binding capacity.

RAIL TRANSPORT & EXPORT SUPPORT

Rail transportation support is available 24/7 to help move goods and support export shipments.

CONFIDENTIAL INTAKE FORM

Please complete the following to the best of your ability. Incomplete or insufficiently detailed submissions may be declined without further review.
